## **Project MUSE**

Roger Horowitz opens *Putting Meat on the American Table: Taste, Technology, Transformation* with the observation that America is a meat-eating nation. Throughout his narrative, he examines the forces that allow so much meat—six to eight ounces per person per day—to [End Page 626] satiate Americans' appetite. The central

questions driving Horowitz's analysis are (a) what is the relationship between producing and consuming a product and (b) how does the nature of the good affect this ...

### **Putting Meat on the American Table: Taste, Technology ...**

Putting Meat on the American Table: Taste, Technology, Transformation. He draws on detailed consumption surveys that shed new light on America's eating preferences—especially differences associated with income, rural versus urban areas, and race and ethnicity.
